San Patrignano is world's largest therapeutic community working for the last thirty years for the full recovery of those suffering from drug addiction.

Rehabilitation, professional training and social reintegration are the key concepts to have given a chance to more than 20, 000 young people to start anew without drugs.

Independently verified success rate of San Patrignano recovery programme is over 70%.

Welcome to SanPatrignano

Since 1978, San Patrignano has taken in many young people for free, offering them home, healthcare, legal assistance, and the opportunity to study, learn a job, change their lives, and regain their status as full members of society.

WeFree Day's objective is to build a bridge between young people and the civil society in which they find themselves as they grow and mature. There will be two concurrent types of activities running on the day of the event, theatrical presentations starring and aimed at young people to educate on drug abuse, and, in parallel, international practitioners will participate in three forums, along with professionals and representatives of civil society.

European Cities Against Drugs

In co-operation with

San Patrignano Community

San Patrignano

October 15, 2011

Addicted to life

San Patrignano invite you to celebrate hope and liberation from drugs on Saturday, October 15, 2011.

San Patrignano Community along with Italian Ministry of Education and other actors organize presentations and Forums using "peer to peer" education on the dangers of drug use. This prevention project is called **WeFree**. WeFree Day is an event organized by 1600 young women and men.

This year, San Patrignano's WeFree day will open the **Prevention Campaign for 2012**.

The aim is to increase awareness about harms to health, society and the environment caused by drug use, trafficking and production.

International and Italian political bodies, media, artists, high school students and relevant international associations will discuss blurred boundaries between legal and illegal substances as well as psychological effects of drugs used to improve working performance.

Anders Eriksson, Development Manager, Social Development Unit, City of Stockholm:

[Perspectives on prevention and international outlooks](#)

Prevention Centre Stockholm is a resource center for primary prevention of alcohol, drugs and crime. Its main task is to support professionals to prevent drug problems in their own local part of the city. By "professionals" we mean persons who work with drug and/or youth issues, such as social workers, school personnel, police, local politicians etcetera. Main task is to promote a better local alcohol-, drug- and crime preventive work.

Fabio Bernabei, Journalist, Rome, Italy:

[Italian drug policy—a deep investigation](#)

Fabio Bernabei is an Italian writer and investigative journalist born in Rome, where he studied Pedagogy. Expert on drug prevention policies, he has been consultant for the Italian National Department for anti-drugs policies and senior advisor for the Italian Ministry of Foreign Affairs. He is president of Osservatorio Droga and ECAD representative in Italy.
