

Building Towards a Comprehensive and Ambitious Drug Policy in Preparation for UNGASS 2016

May 11-12, 2015
MALTA
Hosted by the Swieqi Local Council

DEAR FRIENDS AND COLLEAGUES

Ola'... A warm welcome to you all. It is our great pleasure to invite you to the **22nd ECAD Mayors' Conference in Malta**.

Drug use and addiction is a complex problem that requires a comprehensive and ambitious answer. Drugs damage the physical and mental health of a person and contribute to a loss of cognitive abilities, affect family life and relationships, decrease job productivity, and are an overall concern to public health and safety. As drugs don't come cheap, addicts will spend a large amount of money to sustain their habits. This starts a vicious cycle that destroys the life of a person.

It is important to highlight that the adverse outcomes of drugs require a wide range of responses. We need to emphasize the importance of preventing drug use from occurring in the first place, but also facilitate effective treatment of addiction, as well as limit the access to illicit drugs through smart law enforcement interventions.

In 2016, the UN will address the challenges posed by drugs to the global community in a special session in the general assembly –UNGASS. ECAD firmly believes that an ambitious and comprehensive drug policy is the best way to address the complex problems from drugs and should guide our discussions up to UNGASS.

I look forward to continuing our discussion in Malta!

City Councillor
